

RESOURCE EFFICIENCY PLEDGE BRONZE

The way in which we use energy, water and materials has a direct impact on the competitiveness and future viability of our business.

By signing up to the Pledge, we agree to:

- Commit to embedding resource efficiency in our own business operations;
- Show leadership in driving sustainable growth through our supply chain; and
- Actively contribute to achieving a low carbon economy for Scotland.

Over the last 12 months, we have achieved this by:

1. **Benchmarking resource use**
2. **Becoming an exemplar in resource efficiency**
3. **Setting senior management agenda**

Signed

Iain Gulland

Chief Executive, Zero Waste Scotland
