H1 2020 - Operational highlights
Resilient performance in difficult markets

- Responded swiftly to a very challenging environment; safe working conditions established, and liquidity, production and supply chains maintained
- Resilient margin performance of 11.4% and positive operating free cash flow
- Prudent measures quickly taken to preserve cash, including reduced capex and dividend suspension
- Short term cost savings measures successfully executed, reducing fixed costs by €25m in Q2 2020, with a similar level of savings expected in H2 2020
- Strategy remains on track; key initiatives extended to further improve cost effectiveness
  - Production Optimisation Plan on track, and opportunities to expand the scope identified
  - Additional selling and administration run-rate savings identified of €10 million in 2020 and €30 million in 2021
  - Review of internal raw material sourcing to maximise quality and cost advantage
H1 2020 Health and Safety summary

- Health and Safety has been our priority during the pandemic
  - Strict restrictions/precautions in place at all sites
  - A Coronavirus Update channel providing employees with regular updates and reinforcing our internal guidelines
  - Isolated number of employees testing positive for COVID-19

- Broader Health and Safety agenda continues
  - Preventative KPI's continue to significantly improve LTIF
  - Preventative ratio up by +40% compared to H1 2019
  - Zero Lost Time Injuries in June, the fourth month recording zero in 2020
Our 2025 Sustainability targets

- **CO₂ emissions**: Reduce by 15% per tonne of product by 2025\(^1\)
- **Energy**: Reduce by 5% per tonne of product by 2025
- **NO\(_x\) and SO\(_x\) emissions**: Reduce by 30%\(^2\), starting with China by 2021
- **Recycling**: Increase use of secondary raw materials to 10% by 2025
- **Safety**: Maintain LTIF at below 0.5 (Goal: zero accidents)
- **Diversity**: Improve gender diversity on Board and in senior leadership to 33% by 2025
- **Community**: Develop strategic, impact-focused community investment partnerships

- **Local community support across our global operations**: providing financial and in-kind donations to vulnerable communities, hospitals and frontline medical staff.

- **Launched the “ Ankral LC” series**: it has a 13% lower carbon footprint than conventional products in Cement applications, positive customer response

- **Launched the “Cost-per-saving” business model**: sharing operational savings (including lowering carbon emissions) between customer and the Company

- **Lost Time Injury Frequency Rate**: continued to reduce to less than 0.1 in H1 2020, demonstrating the success of the new Safety preventative KPIs

- **Gender diversity**: female representation at management level at 20% for the first time

- **Achieved EcoVadis Silver rating**: awarded in July 2020 for our sustainability effort, with the score placing RHIM amongst the top 10% of companies assessed by EcoVadis.

Note: Targets are compared to 2018 baseline: 1) Includes Scope 1, 2 and 3 (eg own sites, customers and suppliers); 2) Target by 2027

**H1 2020 performance**
- Further weakness in Steel Europe, South America and India
- More resilient performance in MEA and Asia
- NAM mixed: Strong in Q1, weak Q2
- Lower fixed cost absorption, especially due to higher cost production base in Europe

**2020 Outlook**
- Limited visibility in the order book
- Q3 volumes anticipated to be similar to Q2

Notes:

Divisional review
Industrial

H1 2020 performance
- Robust performance in Cement/Lime
  - Strong first quarter, reflective of high seasonal demand, during the annual repair cycle
  - Seasonal impact in Q2 alongside COVID-19 effects
- Weaker performance in the Project businesses in Q1, with a number of projects delayed
  - Lower demand in the Non-ferrous metals business
  - Broadly stable demand in the Glass business
  - Lower demand in the EEC business, predominantly due to the negative impact of the global oil crisis

2020 Outlook
- Cement/Lime similar performance in H2 to Q2
- Industrial project segment more dependent on the phasing of new projects

</tr>
<tr>
<td><img src="image4.png" alt="Icon" /></td>
<td>Digitalisation — less personal contacts, but more data interfaces</td>
</tr>
</tbody>
</table>

## Our response

- Maintain liquidity position
- Production Optimisation Plan
  - Expand plant consolidation to reduce costs, further details in H2 2020
- Short term cost savings and SG&A savings
  - Rightsize organisation
  - Business process streamlining
  - Move more corporate activities into shared service centers
- Regionalisation – faster decisions, made closer to customer market
  - Accountability – true P+L and balance sheet responsibility within regions
- ‘Variablise’ costs
  - Identify fixed costs that can be made variable (e.g. outsourcing)
- Digitalisation
  - Accelerate digital tools (particularly to support solutions model) and automation
  - People, Process, Network and Operating model fully aligned with strategic pillars

- Weaker revenue performance in line with COVID-19 scenario planning
- Revenue decline driven by:
  - Significantly lower volumes, from lower demand in end-markets impacted by COVID-19
  - Lower product pricing, from lower raw materials prices
  - Exit from Iranian market
- Double digit adjusted EBITA margins
  - Lower fixed-cost absorption
  - Offset by cost saving initiatives

**Margin progression**

Refactory margin continued to improve against H2 2019: contribution from Backward Integration further reduced

- Additional self help measures will continue to support the refractory margin
- Despite lower raw material prices, Group return on invested capital of €1,963 million (ROIC) stood at 10.4% in H1 2020, of which raw material invested capital of €429 million delivered a ROIC of 8.6% in H1 2020
- At current raw material prices, backward integration contributes 2.3% to 2020 forecast EBITA margin (as at 5 August)

**Note:** 1) Calculated as NOPAT divided by total invested capital

**2020 Half Year Results | August 2020**
Raw material prices fell materially in H1 2020

- Magnesia prices (high grade DBM China) have reduced up to c. 1/3 since the start of the year
  - Supply of magnesia in China has continued to increase in the COVID-19 crisis
  - Global slow down in the rest of the world has weakened demand from end markets
- Sourcing review completed in H1 2020 confirmed all key raw material plants well positioned on industry cost curve
- Porsgrunn (Norway) and Contagem EFM (Brazil) plants remain mothballed
  - Long-term alternative supply contract secured for EFM

Summary and outlook
Summary and outlook

- Overall, resilient performance in tough market conditions
  - Liquidity, production and supply chains maintained
  - Double digit margin performance
  - Stable net debt position

- Activity levels likely to remain subdued into Q3, with limited visibility beyond that

- Strategy unchanged with appropriate actions implemented to ensure that the business can manage effectively through an extended period of subdued demand

- Efficiency initiatives will support H2 profitability and beyond

- Strong financial position ensures the Group is well equipped to take advantage of growth opportunities when markets improve

**Interest income and expense:**
- Net interest expense amounted to €6.8m, 57% lower than the previous year (H1 2019: €15.9m)

**Foreign exchange:**
- Foreign exchange variances of €15.5m, 63% higher than the previous year (H1 2019 €9.5m)
  - The net expense on foreign exchange effects in the current reporting period resulted mainly from the devaluation of the Brazilian Real against the US Dollar
  - €(7.4) million non-recurring adjustment was made for FX exposure on an intercompany dividend between Mineraco (Brazil) and Magfin (USD) payable in Brazilian Real, due to the strong devaluation on the BRL against USD over the period. This arrangement has been restructured, and there will be no future FX movements.

**Other net financial expenses:**
- Other net financial expenses amounted to €14.8m, 26% lower than the previous year (H1 2019: €19.9m)
  - €3.5m related to the non-cash, present value adjustment of the provision for the unfavourable contract required to satisfy the EU remedies
  - Net interest expense on personnel provisions €3.1m (pensions)
